COUNTY DEPARTMENT AGENDA REQUEST

Department:	911 Communications	Presenter(s):	Cheryl Rogers / Peggy Glaze
Meeting Date:	Thursday, June 10, 2010	Type of Request:	Consent

Wording for the Agenda:

Approval of staff's recommendation for approval of the Amendment To The Frequency Reconfiguration Agreement between Fayette County and Sprint Nextel Corporation, required by the rebanding of the 800 MHz public radio system used by the Fayette County 911 Center.

Background/History/Details:

This Amendment dated March 31, 2010 contains changes to the 11/4/2009 FRA between Fayette County, Georgia and Sprint Nextel Corporation and is required by the FCC mandated rebanding of the 800 MHz public safety radio system. This contract change is required in order for Motorola to perform the required work and allow Fayette County to cutover to the new rebanded radio system frequencies. These additional radio subscriber units were located after the on-site inventory validation for these Fayette County agencies. It was made known during the planning stage of this 800 MHz rebanding project that there might be discrepancies in the original contracted subscriber inventory. Please reference the attached 3/31/2010 EA correspondence for specific detail. Be advised, there is no cost to Fayette County and/or the Fayette County municipalities. This agreement has been reviewed and approved by Engineering Associates, Inc., our engaged Project Management firm for this project, and Rosalind K. Allen, our engaged Attorney for this project. Both Engineering Associates and Rosalind K. Allen have provided documentation stating the same.
