COUNTY DEPARTMENT AGENDA REQUEST

Department/Division: Engineering

Department Head: Phil Mallon

Presenter, if needed: Phil Mallon, Vanessa Birrell

Preferred Meeting Date: March 5, 2008

Wording for the Agenda:

Discussion and direction regarding Fayette County's Stormwater Maintenance Program. This item was last discussed at the County Commission Retreat in November, 2007.

Background/History/Details:

The County's existing Stormwater Maintenance Program operates and maintains stormwater structures within the County Right-of-Way (R/W) and on other County-owned land. Recent regulations now require ongoing inspection and maintenance of all "new" stormwater systems. Currently, this responsibility is placed on the property owner or Home Owners Association for structures outside the R/W. "Old" systems have no inspection or maintenance requirement, however, the County is responsible for the water quality impacts of these systems on our receiving waters.

At the BOC Retreat in Nov., staff was directed to bring information back to the Board. At this workshop, existing policy how to identify the pros and cons of alternative maintenance programs will be reviewed. In future workshops , staff will provide preliminary funding and cost data. Ultimately, an Extent of Service and Level of Service document will be prepared for the BOC review and approval.

What action are you seeking from the Board of Commissioners?

Discussion and direction on stormwater maintenance options.

[redacted]

If this item requires funding, please describe:

No funding is required at this time.

Has this issue come before the Commissioners in the past? Yes

If so, when? November, 2007 Retreat

Do you need audio-visual for the presentation? Yes
