STAFF REPORTS

Update Regarding the Proposed Driveway Easement Policy: Director of Public Works Phil Mallon reminded the Board that a proposed Driveway Easement Policy was discussed during the October 7, 2009 Workshop Meeting during which time he was directed to discuss the policy with the Planning Commission. He said the Planning Commission was supportive of the concept of not charging or compensating property owners for improvements on private property, and that the Planning Commission asked for the policy to include dates of applicability, to provide more detail for driveway specification, to provide a well-defined drawing and scope of work for each property, and to photograph the area before the work begins. He added that the Planning Commission mentioned that if the County is doing work on private property and makes a mistake it needs to be held accountable for that error, and that the County needs to add more flexibility into the wording related to existing structures. He concluded that while he has not yet made the changes to the proposed policy document he would do so, provide the changes to County Attorney Scott Bennett for review, and then provide the proposed policy to the Board for review.

Request from Whitewater Creek Community Association and High Grove Subdivisions: Director of Public Works Phil Mallon reported that Public Works received a formal request from Whitewater Creek Community Association and High Grove Subdivision to determine if a four-way stop or a multi-way stop is justified at the intersections of Quarters Road, Birkdale Drive, and Redwine Road. He said the study was conducted with help from the Fayette County Sheriff's Department after which a lengthy response was written stating the intersections did not warrant a four-way stop. He said the finding was based on well established standards.

BOARD REPORTS

Recognition of Buildings and Grounds Staff: Commissioner Horgan wanted the Board to publically recognize Buildings and Grounds Director Greg Ownby and his staff for their good work renovating the grounds at the Historic County Courthouse. He said he has received a number of good comments regarding the work performed by the staff. Discussion followed.
