COUNTY DEPARTMENT AGENDA REQUEST

Department:	Water System	Presenter(s):	Tony Parrott
Meeting Date:	Wednesday, January 6, 2010	Type of Request:	Consent

Wording for the Agenda:

Approval of staff's recommendation to award Bid #728 Water Distribution parts to five companies which were the low bidders on items used by the Water System for water distribution system installation and repair.

Background/History/Details:

Items used by the Water System for repair and maintenance in distribution are purchased as needed. Quantities ordered vary depending on the need, so exact quantity cannot be predetermined. Enough stock is kept in inventory at the Distribution Ship to avoid water customers being without water for long periods of time when there is a main break that needs emergency repair.

This is an annual bid for these items.

What action are you seeking from the Board of Commissioners?

Award of the low bid items to five recommended companies as detailed in supporting documentation.

If this item requires funding, please describe:

Funding has been budgeted in the Water System repairs to water meters and lines.

Has this issue come before the Commissioners in the past?	No	If so, when?	
Do you need audio-visual for the presentation?	No	Back-up Material Submitted?	Yes

STAFF USE ONLY

Approved by Finance	Yes	Reviewed by Legal	
Approved by Purchasing	Yes	Approved by County Clerk	Yes
Administrator's Approval	Yes

Re: Award Recommendations for Bid #728 – Water Distribution Parts - 2010

I am recommending awarding Bid #728 to five companies that were low bidders on items used by the Fayette County Water System for water distribution and repair:

Delta Municipal Supply Company
Ferguson Waterworks
Hayes Pipe Supply, Inc.
HD Supply Waterworks
Southern Pipe & Supply

Attached is a low bid worksheet for each vendor.

Ferguson Waterworks was the overall lowest bidder on the valve box category and we recommend they are awarded the bid for line items 220-225.

All of these items are used by the Water System for repair and maintenance and are purchased as needed. Quantities ordered vary depending on the need, so exact quantities cannot be predetermined. Our stock is kept up-to-date at the Distribution Shop to avoid our water customers being without water for long periods of time when there is a main break that needs emergency repair.
