I. CONSIDERATION OF A REQUEST FROM PEACHTREE CITY CONCERNING PROPOSED TRANSPORTATION PROJECTS AT CROSTOWN ROAD AND PEACHTREE PARKWAY; AND THE GATEWAY BRIDGE MULTI-USE PATH PROJECT:

Peachtree City Manager Bernie McMullen and Peachtree City Engineer Dave Borkowski presented a power point presentation and discussed proposed transportation projects at Crosstown Road and Peachtree Parkway and the Gateway Bridge Multi-use Path Project with the Board. A copy of the request and backup, identified as "Attachment No. 9", follow these minutes and are made an official part hereof.

Commissioner Maxwell commented on the project at Crosstown Road and Peachtree Parkway and said he would not be in favor of a signal at that intersection. Mr. Borkowski said a traffic study was done and it indicated that a signal and turn lanes were warranted under the existing conditions of traffic flow.

Mr. McMullen said the plan that they were presenting to the Board was the concept plan that had been approved by the D.O.T. and members of the Peachtree City Council had indicated they were not in favor of a signal if there was a practical alternative and they intended to do more research before accepting a signal as the only alternative. Commissioner Maxwell said he would have a hard time approving the concept plan as presented. Chairman Smith asked the estimated cost of a scoping study to determine the alternatives before this Board voted to allocate funds to a project that seemingly was not what Council wanted. Mr. McMullen replied the cost would be approximately \$25,000.

There was a consensus of the Board to allocate up to \$25,000 to do a preliminary engineering design study on traffic routing at the Crosstown Road and Peachtree Parkway intersection. County Administrator Jack Krakeel said he would work on an Intergovernmental Agreement and put this item on the Board's December 9th meeting agenda for consideration.
