Approval of staff's request to utilize $3,325 from the County's Fund Balance to purchase a replacement radio used to activate an Early Warning Weather Siren on Ellis Road.

Background/History/Details:

During a routine test, staff learned that the Motorola radio used to active the Early Warning Weather Siren on Ellis Road failed to operate.

Motorola has determined that the radio is unable to be repaired, is no longer supported by the system, and that repair parts are no longer made available.

A replacement radio is required since it is vital to the Early Weather Warning System in Fayette County. It is the instrument that will be used to activate the siren located in the Northeastern part of Fayette County, and it specifically covers the north part of Fayetteville and the Fayetteville Pavilion.
