COUNTY AGENDA REQUEST

Department:	Commissioners	Presenter(s):	Chairman Steve Brown / Phil Mallon
Meeting Date:	Thursday, March 28, 2013	Type of Request:	New Business

Wording for the Agenda:

Discussion in response to questions concerning stormwater management as associated with the West Fayetteville Bypass.

Background/History/Details:

During the March 14, 2013 Board of Commissioners meeting, a citizen told the Board that he had one, continuing, and unanswered question that he had risen several times but did not have an answer on. He questioned whether the Stormwater Utility Department ever reviewed the best management practices to be installed when the West Fayetteville Bypass was built. He said the last he heard, staff did not know if they had been reviewed. The citizen felt this was important since the West Fayetteville Bypass represents about one million square feet of impervious surface. He understood that staff performed the Sediment Erosion Control [study], but he did not know whether there were adequate provisions alongside the bypass to protect the stormwater runoff.

County Administrator Steve Rapson informed the Board at the meeting that an answer would be provided at the March 25 Stormwater Town Hall Meeting. Chairman Brown has asked to have the answer provided at the March 28 meeting as well.

What action are you seeking from the Board of Commissioners?

Discussion in response to questions concerning stormwater management as associated with the West Fayetteville Bypass.

If this item requires funding, please describe:

Not Applicable.

Has this request been considered within the past two years?	No	If so, when?
