

Ebenezer Church Road Bridge Replacement

Category: Infrastructure Preservation and Improvements

Location: Ebenezer Church Road at Whitewater Creek Bridge

Estimated Cost:

SPLOST Match \$659,500

Federal/State Match \$3,062,983

Total Cost **\$3,722,483**

Project Description

This is a Georgia Department of Transportation (GDOT) sponsored bridge replacement project that is currently in the early stages of design.

The existing bridge, built in 1965, and consists of four spans of reinforced concrete deck girders on steel piles, concrete columns and concrete caps. The overall condition of the bridge is good, the design vehicle used for the bridge is below current standards, so the bridge is posted with weight restrictions.

The new structure will be wider and meet all current design standards. Fayette County is working with GDOT to coordinate the new design with possible future bike lanes or multi-use paths along Ebenezer Church Road.

Costs for the project are based on an August 24, 2016 estimate. The balance of the project (\$3,620,983) will be paid with state and federal dollars. GDOT's schedule for construction is fiscal year 2019.

Map Location

Ebenezer Church Road is located southwest of downtown and can be accessed by Redwine, Lester, and Ebenezer Roads.

Existing Conditions

Ebenezer Church Road has two bridges. One crosses at Whitewater Creek and second at Pelham Creek. This project is for bridge replacement over Whitewater Creek, which is located between Hideaway Drive and Lester Road.
