

## Fire Training Center & Contingency

**Category:** Fire & Emergency Services

**Location:** Links Training Facility

**Estimated Cost:** \$150,770

### Project Description

The first phase of this project is the initial design of the utilities, (water lines/power), road layout, and the site development plan for the future construction.

The current fire training facility begins in 1984 with the construction of the fire training building. The site also houses a training tower and portable classroom building.

Additional design phases in the future would include a modern fire training building with training tower, driver training site, pump training site, LP/natural gas training area, vehicle extrication area, breathing apparatus course, and storage building for required equipment and apparatus.
