

Kenwood Road School Zone

Category: Infrastructure Preservation and Improvements

Location: Kenwood Road at North Fayette Elementary

Estimated Cost: \$600,000

Project Description

This is a Fayette County safety project on Kenwood Road.

This project provides design and construction of auxiliary lanes (e.g., center left turn lane) on Kenwood Road for the North Fayette Elementary School.

Providing turn lanes will reduce the risk of rear-end collisions and reduce delays to thru traffic. The design process would include soliciting input from the School System, Sheriff's Office, and other stakeholders in the area.

The project would be funded entirely with SPLOST dollars.
