

November 1, 2017

Fayette County and the cities of Fayetteville, Peachtree City, Tyrone, Brooks, and Woolsey are currently in the process of updating the **Fayette Transportation Plan**. An important piece of this plan is the creation of a strategy to implement a county wide path system.

### Purpose

In an effort assess current usage levels, staff and volunteers will be out at strategic locations conducting counts and intercept surveys. The goal is to find out how many people are walking, biking, and using golf carts at each location. It will also be important to gather information on user preferences. For example, why are they walking, biking; what do they enjoy about using golf carts; and what could make their experience better?

### Details

Staff and volunteers will be out on **Wednesday, November 8<sup>th</sup>** and **Saturday, November 11<sup>th</sup>** at locations throughout the county (see map below). If you have any questions or need additional details please call Phil Mallon at 770-320-6009.
