Subject: RFQ #27032-Q: Woodland Link Multi-Use Path Project - GDOT PI 0021591
Fayette County and City of Fayetteville, GA
Addendum #1

Gentlemen/Ladies:

Below, please find responses to questions, clarification, or additional information for the above referenced RFQ. You will need to consider this information when preparing your Statement of Qualification (SOQ).

1. Based on Exhibit I in the RFQ, the Woodland Link Multi-Use Path appears to cross over a stream and then connect to the existing path located in the Ridge Nature Area. Is there a particular reason why a Bridge Key Team Leader resume is not required, while Area Class 4.01(a) is required?

Agreed. A KTL for Bridges has been added to the list of "Related Key Team Leaders". The revised list, from page 27 of the RFQ, is provided below with the change highlighted in yellow.

J. Project Management Activities

1. Hold monthly meetings with the County and GDOT staff, in addition to the other meetings previously mentioned above, to discuss progress, design issues, and preparation for other formal meetings. Provide meeting minutes for each meeting.
2. Provide schedule updates in Primavera P6 and TPro twice monthly, or as required by GDOT.
3. Perform internal QC/QA reviews and revise plans accordingly.

1. Related Key Team Leaders:

1. Roadway Design
2. Paths & Trails
3. Environmental Studies
4. Utility Coordination
5. Survey
6. Public Involvement
7. Traffic Operations
8. Bridges

2. Based on Exhibit I in the RFQ, the Woodland Link Multi-Use Path appears to be developed within a natural environment with no vehicular traffic surrounding the project area. Therefore, is a Traffic Operations Key Team Leader resume required, and are Traffic Area Classes 3.06 and 3.07 applicable to this project?

Although it is not anticipated, it is possible that work may be required under one or both Area Classes if there are changes to the path alignment. As such, the project team is keeping the requirement for a Traffic Operations KTL and for Traffic Area Classes 3.06 and 3.07 in the RFQ.

3. Can the County please clarify if the two forms at the end of the RFQ, the ANTI-LOBBYING CERTIFICATION and the CERTIFICATION SUSPENSION AND DEBARMENT, need to be executed and included in our SOQ? If so, can the County please advise where the executed forms should be placed within the SOQ?

Yes, these forms must be provided. They may be included as an appendix, and they do not count toward page limitations.

4. We would like to request clarification on the required Paths and Trails Key Team Leader; what does the County anticipate this position would be responsible for? And how does this position differ from the Roadway Design Key Team Leader?

The Paths & Trails Key Team Leader (KTL) will focus on the design of the path itself, including alignment, ADA components, pedestrian crossings, safety, and possible connections to nearby neighborhoods or other destinations. This role is responsible for ensuring the path meets all applicable minimum standards and the City's overarching goals for a safe, comfortable, and connected path system.

The Roadway Design KTL will handle any roadway-related engineering required to support the project, including drainage, traffic operations, adjustments to the existing roadway corridor, etc. The role of the Roadway Design KTL will be less prominent than that of the Paths & Trails KTL and may be used minimally on this project.

5. ATTACHMENT I Submittal Formats for GDOT Engineering Projects seemed to have a formatting error, can you please provide this document with clarified page limitations?

A revised Attachment I with clarified page limitations is provided as part of this response package.

6. Should the ANTI-LOBBYING CERTIFICATION and CERTIFICATION SUSPENSION AND DEBARMENT be provided in an appendix that does not count toward page limitations?

Yes, these forms must be provided. They may be included as an appendix, and they do not count toward page limitations.

7. Please identify the anticipated funding source and confirm whether the projects involve federal funds or approvals. If so, will FHWA or GDOT serve as the lead agency and approve the NEPA document? Please also confirm whether a Categorical Exclusion is anticipated and whether GDOT environmental assignment or oversight applies.

The project was awarded through the GDOT Transportation Alternatives Program. It is programmed in the ARC TIP (FA-360 / PI 0021591) and is funded by the Transportation Alternatives Program

We do not know if FHWA or GDOT will serve as the lead agency or who will review and approve NEPA documents.

Yes, a Categorical Exclusion or Programmatic Categorical Exclusion is anticipated for the project.

8. Please clarify whether the consultant will be responsible for identifying and procuring mitigation credits, if required, and whether the associated credit costs will be reimbursable project expenses.

The consultant team will be responsible for identifying environmental impacts and determining mitigation credits, if required. Fayette County/the City of Fayetteville will purchase the mitigation credits.

9. Are Air Quality and Noise studies actually anticipated for these multi-use path projects, or are those Area Classes listed only as potential qualifications if later determined necessary?

Although the air and noise analysis for path projects is minimal, they are required for NEPA compliance.

10. The County asks for submitting firms to create an area class table similar to the one found in Exhibit IV. Will the County allow firms to submit this area class table on a landscape 11x17?

Yes, the information may be provided on 11" x 17" paper.

11. Which 6.01 area class is required

Only Area Class 6.01(a) – Soil Survey Studies is required for this project.

12. Are the Anti-Lobbying and Suspension and Debarment Certification forms required to submit with our qualifications, and if so, where should we place them in the document?

Yes, these forms must be provided. They may be included as an appendix, and they do not count toward page limitations.

Received by (Name): _____ Company _____

Note: If this addendum is not returned to the Fayette County Purchasing Department or if it is returned not signed, responding individuals, companies or other organizations will still be responsible for the requirements of this addendum and the specifications or changes herein.

The opening date for this RFQ has not changed. **The opening time and date are 3:00p.m., on Wednesday, September 30, 2026.** SOQs must be received by the Purchasing Department at the address above, Suite 204, at or before the opening date and time.

The deadline for inquiries has passed, so the Purchasing Department will not be able to accept any additional questions after this time.

If you have questions, please contact Sherry White, Senior Contract Administrator at (770) 305-5314 or email at swhite@fayettecountyga.gov .

Sincerely,

A handwritten signature in blue ink, appearing to read "Ted L. Burgess", enclosed within a blue oval.
