- C. CONSIDERATION AND APPROVAL OF RESOLUTION 2009-15 WHICH APPROVES THE FAYETTE COUNTY 2009 ANNUAL REPORT ON FIRE SERVICES IMPACT FEES FOR FY2009 , INCLUDING THE COMPREHENSIVE PLAN AMENDMENTS FOR UPDATES TO THE CAPITAL IMPROVEMENTS ELEMENT AND SHORT-TERM WORK PROGRAM FOR FY2010-FY2014:**

Assistant Director of Planning Tom Williams remarked that this was an annual process. He asked for the Board's consideration to approve the Resolution which would approve the Fayette County 2009 Annual Report on Fire Services Impact Fees for FY2009, including the Comprehensive Plan Amendments for updates to the Capital Improvements Element and Short-Term Work Program for FY2010-FY2014. He also asked for consideration for the Chairman to execute the Resolution as well as to transmit this to the Atlanta Regional Commission for coordination of regional and State review. He noted that the impact fees collected for FY2009 in the County amounted to \$24,184. He said this was a considerable drop from the high that the County had in 2005 but was reflective of the current economic climate.

Commissioner Horgan made a motion to approve Resolution 2009-15 regarding the 2009 annual report on fire services impact fees for FY2009 including the comprehensive plan amendments for updates to the capital improvements element and short-term work program for FY2010-FY2014 and to authorize transmittal of the Resolution to the Atlanta Regional Commission for regional and State review. **PUBLIC COMMENT:**

**GORDON FURR:** Gordon Furr of Tyrone commented on the West Fayetteville Bypass. He felt the Bypass would have a huge impact on the County's water supply as a result of the drain pipes that would be installed in the County's greenspace areas. He also pointed out that there would be increased traffic on Sandy Creek Road that would impact citizens who lived in that area. He commented on the fire station in Tyrone and felt the septic tank for that station was repairable. He further remarked that Commissioner Horgan should resign as a member of the Fayette County Board of

Health and felt he was not doing his job since he was not upset over the intrusion of the bypass on the County's wetlands.

**TOM HALPIN:** Tom Halpin commented on Phase III of the Bypass and the close proximity of it to his subdivision Surrey Park. He questioned when signs would be posted that would let the citizens know exactly where Phase III was being proposed for construction. He said it was his understanding from County personnel that there were three or four plans being considered and after the County decided which plan would be the best for the County, signs would be posted and citizens would be notified. He urged the Board to let citizens know what was happening on Phase III before things started happening.

**OLD BUSINESS:**

- D. **FURTHER DISCUSSION BY ELECTIONS SUPERVISOR TOM SAWYER CONCERNING FUNDING THE COST OF THE ONE-PERCENT SPECIAL PURPOSE LOCAL OPTION SALES TAX REFERENDUM SCHEDULED FOR NOVEMBER 3, 2009:**

Elections Supervisor Tom Sawyer that he had discussed this with the Board under Staff Reports at the last Commission meeting. A copy of his request, identified as "Attachment No. 7", follows these minutes and is made an official part hereof. He said he had estimated the cost of conducting the Special County-wide Election on November 3<sup>rd</sup> not to

exceed \$35,000. He stated there had also been discussion at the last Commission meeting regarding a proposal to notify the citizens who would be required to vote in two precincts with one being for the municipal election and one for the County's S.P.L.O.S.T. question. He said he had proposed that the Elections Office send out an informational postcard to those affected citizens in order to notify them of the two locations where they would need to vote.

Chairman Smith clarified that the issues involved included appropriating the money from contingency to fund the election for the S.P.L.O.S.T. and whether or not to incur the cost of sending an additional mailer out, which was not required, to properly inform the voters of the situation that some would have to vote in two separate locations.

Chairman Smith asked the Board if they wished to send out the mailer to notify the affected citizens of polling locations and it was the consensus of the Board to proceed with this. Chairman Smith remarked that the wording on the notice must be addressed and whether or not this Board would be accused of promoting or not promoting the S.P.L.O.S.T. based upon the wording in the notice. He asked County Attorney Scott Bennett to address that issue.

County Attorney Scott Bennett said he had reviewed the proposed notice and he found it to be neutral as to the issue of whether or not a S.P.L.O.S.T. should be imposed. He said the notice was purely informational and would only go to the affected voters.

Commissioner Hearn asked for the anticipated time for the mailing of the notice and Mr. Sawyer replied that it would probably be during the middle of October. Commissioner Hearn felt the notice should go out just before the election and not too far in advance.

Chairman Smith respectfully disagreed and felt the notice should go out as soon as possible to give the voters enough time. Mr. Sawyer said he would estimate that the Elections Office could accomplish this within two weeks. Chairman Smith said he would like this to proceed as quickly as possible.

County Administrator Jack Krakeel reminded the Board that in the S.P.L.O.S.T. agreement with the municipalities there was a provision that was agreed to by the municipalities for the reimbursement of expenses associated with the S.P.L.O.S.T. election and the \$35,000 that was being allocated would not end up being the full cost to the County and there would actually be a reimbursement of approximately 51% from the municipalities back to the County.

Commissioner Horgan made a motion to approve the Elections Department's request to transfer up to \$35,000 from contingency to the Elections Department's budget to fund the cost of conducting the special county-wide election on November 3, 2009 for a referendum for a Special Purpose Local Option Sales Tax which also includes mailing out the postcard notices as soon as possible to municipal voters regarding their polling location. Commissioner Frady seconded the motion. The motion carried 5-0.

**E. UPDATE FROM CONSULTING ENGINEER DAVID JAEGER OF MALLETT CONSULTING, INC. CONCERNING A REQUEST FROM COWETA COUNTY IN REGARD TO INDIVIDUAL CERTIFICATES OF ELEVATION FOR PROPERTIES THAT ABUT LAKE MCINTOSH WHICH LIE WITHIN COWETA COUNTY:**

Consulting Engineer David Jaeger of Mallett Consulting, Inc. remarked that he was the Project Manager for the Lake McIntosh project. He said when the Lake was completed and full FEMA would revise the flood plain maps changing the flood elevations around the lake and therefore changing the flood elevations that currently were on the properties abutting the lake. He said as a result the Coweta County Board of Commissioners has asked Fayette County to provide elevation certificates to these property owners. He said the intent of that would be that these property owners would be susceptible to an increase in their insurance premiums due to mandatory flood insurance required by a mortgage lender.

He said there were approximately 60 parcels on the Coweta County side of the reservoir and approximately half of those have structures on them. He said there was approximately the same number on the Fayette County side. He remarked that the cost to provide these elevation certificates would be approximately \$500 each provided that they could be done in groups that would make it more efficient for a surveyor to do the work. He said each elevation certificate would require a surveyor to enter the property, take some elevation readings of the lowest finished floor, make assessments of the property and compare it to the new revised flood elevation.

County Attorney Scott Bennett said it was his recommendation to Mr. Jaeger that Fayette County provide Coweta County copies of what Fayette had sent to FEMA and these documents could be made available to homeowners to determine the potential floodplain area. He said so far as purchasing a certificate or paying for the homeowner to have a certificate, he did not feel that this was within the County's authority to do this. He said the County had already bought the right to flood this land. He said the County owned this land and the property owners have been on notice well before any of this occurred. He said any property damage or property issues that come with this potential flooding was compensated for when the County purchased the land. He said he would find it hard to justify spending more money for this potential flooding when the County had already bought the right to do it. He said the actual problem was with the County spending the money and the obligation for the County to do this.

County Administrator Jack Krakeel remarked that there had been a hearing approximately six to eight months ago that Water System Director Tony Parrott and David Jaeger attended. He said at that time homeowners were notified and discussions took place. He said he would be glad to contact the Coweta County Administrator and make sure that they understand the request.

Chairman Smith remarked that since Mr. Jaeger's discussion had not been with a Coweta Commissioner or the Chair of that Commission that this item be tabled until clarification could be obtained as to the intent of their request.

Commissioner Frady made a motion to table this item until further information could be obtained. Commissioner Horgan seconded the motion. The motion carried 5-0.

**NEW BUSINESS:**

**F. CONSIDERATION OF WATER COMMITTEE'S RECOMMENDATION THAT THE CITY OF STOCKBRIDGE BE ALLOWED TO DEVELOP A PLAN THAT MEETS CORPS OF ENGINEERS APPROVAL FOR USE OF THE TWO WELLS AT THE REEVES CREEK MITIGATION SITE WHICH IS OWNED BY FAYETTE COUNTY:**

Chairman Smith interjected that this item was removed from the agenda.

Commissioner Frady made a motion to authorize the Chairman to execute the reimbursement agreement between Fayette County and the Peachtree City Airport Authority regarding the construction of an access drive to the Lake
