CONSENT AGENDA:

Commissioner Horgan moved to approve Consent Agenda Items 1-18. Commissioner Frady seconded the motion.

Chairman Smith asked for Consent Agenda Items 1 and 4 to be removed from the Consent Agenda. He explained that staff is working on an alternative for Consent Agenda Item 1 which could save the County some money, and he said staff had asked the Board to remove Consent Agenda Item 1 from the agenda.

Commissioner Horgan amended his motion to approve Consent Agenda Items 1-18 excluding Consent Agenda Items 1 and 4. Commissioner Frady seconded the amended motion. No discussion followed, and the motion passed unanimously.

- 1. Approval of staff's recommendations to extend Proposals P558, P614, and P623 to Building Maintenance Services, Inc. and Imagann Cleaning Service, Inc. for one additional year, effective July 1, 2010, at an aggregate cost of \$60,396.00. A copy of the request, identified as "Attachment 3", follows these minutes and is made an official part hereof.**

Commissioner Maxwell asked if Consent Agenda Item 1 was removed from the agenda and if it would return on another agenda at a later date. Chairman Smith replied that was correct. No vote was taken on Consent Agenda Item 1.

- 4. Approval of local legislation which updates the supplements received by Superior Court Judges in the Griffin Judicial Circuit.**

Commissioner Maxwell stated he has asked for Consent Agenda Item 4 to be placed on the agenda. He moved that the Board approve Consent Agenda Item 4. Commissioner Horgan seconded the motion.

Chairman Smith announced he would vote against Consent Agenda Item 4 and explained the reason for his vote. He explained when he first looked at the local legislation that has passed through the Georgia General Assembly that affects Fayette County, he was told that the "rewrite" of the local legislation is substantially the same as the legislation that the County currently has on its books. He said, from that perspective, one could argue there is not much difference between the existing legislation and the legislation the Board is being asked to adopt. He explained, however, that he is not thrilled with the legislation that the County currently has, that it was passed before he came onto the Board, and if he had been on the Board when it was passed he is not sure he would have supported it at that time in the past. He continued that if he supports a rewrite of the legislation, even though it is substantially the same as existing local legislation, it would be tantamount to approval of the original legislation which he does "not particularly like". He said that is why he would vote against the motion on the table.

No further discussion followed, and the motion to approve Consent Agenda Item 4 passed 4-1 with Chairman Smith voting in opposition. A copy of the request, identified as "Attachment 6", follows these minutes and is made an official part hereof.

NEW BUSINESS:

- D. **Consideration of Water Committee's recommendation that the County relocate the 10" waterline near the intersection of Hilo Road and State Route 92 to accommodate roadway improvements planned by the Georgia Department of Transportation.**

Water System Director Tony Parrott presented this request to the Board. He told the Board that the GDOT is going to align Hilo Road with Kingswood Drive, and as they make this alignment they will be installing turn lanes and placing new asphalt on top of the waterline that has been there since the early 1970s when Hilo Road was a dirt road. He explained the GDOT does not approve of covering up older utilities under new asphalt so about 3,000 feet of waterline has to be relocated. He asked for \$271,000 to complete the project. He added the County's current contractor can do the required work. The Board asked Mr. Parrott, County Administrator Jack Krakeel, and Public Works Director Phil Mallon questions pertaining to the length of time, duration, and road work involved with the GDOT's roadway improvement.

Commissioner Frady moved to approve the Water Committee's recommendation that the 10" waterline near the intersection of Hilo Road and State Route 92 be relocated to accommodate roadway improvements planned by the Georgia Department of Transportation at a cost of \$271,000 to be funded from the Water System's Renewal and Extension Fund. Commissioner Horgan seconded the motion. No discussion followed, and the motion passed unanimously. ADMINISTRATOR'S REPORT

April 7, 2010 Board of Commissioners Workshop Meeting: County Administrator Jack Krakeel reminded the Board that the month of April will only have two Commission meetings since it is one of those months where the Wednesday Workshop meeting is held on the day before the first Thursday meeting is typically scheduled. He said the first April meeting will be held on Wednesday, April 7, 2010 and it would be a Workshop meeting; the other would be held on Thursday night on April 22, 2010. He explained that Workshop meetings are traditionally used to discuss county business during which no votes are taken, but he asked that the Board allow staff to place items on the Workshop agenda that may require votes to occur since necessary business may be delayed if action is not taken until later in April. The Board consented to allow votes during its April 7, 2010 Workshop meeting.
