Call to Order, Invocation and Pledge of Allegiance

Chairman Brown called the Stormwater Town Hall Meeting to order at 6:59 p.m.
Commissioner Barlow offered the Invocation.
Chairman Brown led the audience in the Pledge of Allegiance.

Town Hall Meeting:

1. Opening Remarks by Chairman Steve Brown.

Chairman Brown gave some opening remarks about the difficult decisions that the Board of Commissioners would have to make, but added that the Board of Education was also meeting and would have to make difficult decisions as well.

2. Stormwater PowerPoint Presentation.

Chairman Brown presented a PowerPoint Document to the audience. He reminded the audience that during the first town hall meeting, he promised several property owners that he would visit their property. He then discussed the properties that he visited and if the County could help rectify the problems he found. Chairman Brown and County Administrator Rapson reviewed some of the suggestions made by the citizens during the first Town Hall meeting and the County's findings on those suggestions.

Five additional people spoke who did not provide either a name or an address for the record.

The following suggestions were provided by those who spoke:

- 1) Stormwater Maintenance needs to be a county-wide effort for all of Fayette County's citizens; not just unincorporated Fayette County.
- 2) Georgia Power should pay for pile-ons, concrete abutments and other impervious surfaces that belong to them.
- 3) The Stormwater Department needs to be put under the County's Road Maintenance Department so that every citizen in Fayette County can be taxed fairly.
- 4) Communicate with the citizens better, some do not get newspapers thrown in their driveways and did not know about the Stormwater fee until it was mailed to them in December.
- 5) Keep library, recreation, schools, and other similar services that retains Fayette County's youth and will undermine the County's future if they are cut.
- 6) Use the money paid for "road taxes" to make the repairs.
- 7) Citizens take individual initiative to repair the problems that are on their property, and the county should send someone who is knowledgeable to the property of each person who complains to guide them on how to fix the problems.
- 8) Stop repaving roads over rotted corrugated pipes.
- 9) Preventative maintenance needs to be practiced all the time, not just when a road needs attention.
- 10) The problem with the bill is that it is hard to know what is being billed.
- 11) Is there consideration of a moratorium on new development since if the County cannot afford to fix what is already here how can it maintain new development.
- 12) It appears that if someone has acreage then they are paying more money, and that is not fair. The whole system needs to be scrapped.
- 13) Road crew to survey all of Price Road.
- 14) The County needs to live within its budget each year, and each year fix what it can.

4. Announce Monday, March 25 as third Stormwater Town Hall Meeting.

Chairman Brown announced that the next Stormwater Town Hall Meeting would be held on March 25, 2013.

Adjournment

The March 4, 2013 Stormwater Town Hall Meeting was adjourned at 9:39 p.m.

Floyd L. Jones, County Clerk
