1. Call to Order

Chairman Brown called the March 25, 2013 Stormwater Town Hall Meeting to order at 7:02 p.m. He told the audience that the meeting would be live-streamed on Channel 23, and he spoke about how Commissioner McCarty had worked, along with several others, to get to the point where the meeting would be live-streamed.

Commissioner McCarty informed the audience that if they did not want to be on camera they would need to move to the back row since there was a good chance everyone would be on camera. He also spoke about how other meetings would be broadcast live on Channel 23. He said the ultimate goal would be to stream meetings online. Commissioner McCarty thanked the audience for coming.

2. Prayer

Commissioner Barlow offered the Invocation.

3. Pledge

Commissioner Ognio led the audience in the Pledge of Allegiance.

4. Stormwater PowerPoint Presentation -- Chairman Steve Brown

Chairman Brown had handouts of a PowerPoint presentation given to the audience, and he stated that the presentation would be on the County's website. Chairman Brown then went through the PowerPoint presentation with the audience. He explained some of the findings and results from the March 4, 2013 Stormwater Town Hall meeting.

- 33) Joe Mowell, Highway 279
- 34) Charlie Edwards, Darren Drive

Five speakers did not provide a name or address for the record.

The following suggestions were provided by those who spoke:

- 1) Some consideration should be given for more credit "than just five acres".
- 2) Many citizens operate under soil and water conservation plans approved by the U.S. Soil and Water Conservation Service, and those citizens ought to receive some credit for that.
- 3) Quit talking about how millage rates will not be raised, and if taxes need to be raises—raise them. Raise taxes so that they can be written off the income tax.
- 4) All the people of Fayette County own the roads and therefore should have responsibility to pay for road maintenance, and that the burden of maintaining the County's roads should not fall solely on the people who live in unincorporated Fayette County.
- 5) Ability needs to be provided to allow for oversight of what is being proposed. The stormwater department needs to concern itself with water quality and management since they are focusing their attention on the wrong things. Culverts need to be addressed by the Road Department, not the Stormwater Management Department.
- 6) Move the Stormwater Management Department into the Public Works Division so that expenses can be paid from the County's General Fund.
- 7) Corrugated pipes do not need to be taken care of all at one time, but they need to be taken care of in a systematic manner year after year after year. Establish a regular maintenance schedule.
- 8) Provide other options that the citizens can vote, alongside the proposed SPLOST, so that the county would receive a percentage of the stormwater fees paid by the City of Fayetteville and the City of Peachtree City to pay for county roads that the cities drive on.
- 9) Funds for the stormwater maintenance should be charged as a tax, and let every person who owns property pay those taxes.
- 10) Learn to use the money you have to correct the problems. The nation and the county needs to return to God for His provision.

6. Adjournment

Chairman Brown adjourned the March 25, 2013 Stormwater Town Hall Meeting at 9:11 p.m.

Floyd L. Jones, County Clerk

Steve Brown, Chairman

The foregoing minutes were duly approved at an official meeting of the Board of Commissioners of Fayette County, Georgia, held on the 11th day of April 2013.
