## ***Notice To Industry*** ***Pre-Inspection Checklist Cards***

Fayette County Permits & Inspections Department is pleased to announce the creation and availability of Pre-Inspection Checklist Cards for our Building Community. These durable, double sided, color printed cards are meant to be handy, useful tools to help the local homebuilder and construction industry successfully complete Fayette County Building Inspections. Although non-conclusive of all code requirements observed during the inspection process, these checklists are assembled to assist in resolving the most frequent of code violations. The printed cards will be available at the Permits & Inspections Department or in limited supply from our Inspectors.

The first card availability will be for helping contractors and homeowners successfully complete **Final Building Inspections** and receive their *Certificate of Occupancy*. ***These cards are available now for immediate use.***

We are near completion of the “**Rough Framing Inspection**” and “**Rough Electrical Inspection**” checklist cards. Our goal moving forward is to produce Pre-Inspection Checklist cards for all Rough and Final Mechanical, Electrical and Plumbing trades and for all cards to be available by the end of 2016.

If you find these checklists beneficial, have other suggestions or comments, please do not hesitate to contact:
