8. Petition No. 1336-23 –Applicant proposes to rezone 1.3 acres from A-R to C-H for the purposes of developing commercial uses.

Deborah Bell states, “That since we don’t have a full board present as Christina mentioned, you have the option to table this until the following month. Ms. Bell asks petitioner if they would like to continue or table this petition. Ms. Bell states we have a quorum, but not a full board they have the option to table.”

Jim Culbreth makes a point of inquiry, “We have a full board in lieu of the fact that we’ve had a member resign, is that correct?”

Bell, “Ok.”

Danny England, “This is as full as we are going to get right now.”

Jim Oliver, “We are a board of four now.”

Deborah Bell presents the staff report for Petition No. 1336-23 which is a request to rezone the above parcel from A-R to C-H. The applicant proposes to rezone 1.3 acres from A-R to C-H for the purpose of developing commercial uses. As defined in the Fayette County Comprehensive Plan, property is designated for low-density residential at one unit per one acre. Therefore, the request for rezoning to C-H is not appropriate. Based on the investigation and staff analysis staff recommends denial of the request simply based on the land use plan. If the request is approved, staff recommends the following conditions:

Staff recommends the following CONDITIONS:

1. The residential structures, primary and accessory, on the property shall be demolished within 90 days of approval of the rezoning.
2. A site plan and appropriate permits are required before any commercial uses may be conducted on the property.
3. A GDOT-approved commercial driveway is required before any commercial uses may be conducted on the property.

The petitioner, Sheffey Cochran, states that the reason they are requesting the property be rezoned is that because everything around the property is zoned commercial. We have a storage unit next to us, next to them is a flooring company, and then a gas station. The other side of the property is where the trading place used to be. When you go down Hwy 85, there are a lot of properties getting rezoned commercial also, so we were trying to get it zoned commercial and have the building there and sell it with the building, not with blank land. The petitioner offers to get a new plat with the property shown if needed, and her buyer bought the old Stinchcomb Property, so we just want to get it zoned commercial because we think it is a better use.

Danny England says “So, Luis Arango is purchasing this property?”

Sheffey states, “No, I am. We own this property. The property behind it, I sold him where it comes out on Redwine.”

John Culbreth asks if anyone else would like to speak on behalf of the petitioner or if anyone is against the proposed rezoning. Are there any questions?

Danny England asks, “So the property adjacent to you to the South. What is that parcel currently? There is a house on that one as well.”

Sheffey Cochran, “Yes.”

Danny England, “But that one is not occupied?”

Sheffey Cochran, "There are people living there because I sold them that house. We bought two houses with it and then I bought a house."

Danny England, "That property was one house and then further south we have the lake with the Stinchcomb house, part of Luis' development, the old Trading Post. I think this is one of those funny properties because you literally draw a line on the map and say commercial/residential. Sometimes we are able to use a road, a body of water, or a power line to make that transition from commercial to residential, but here it is literally you are in the commercial or you are not. You just happen to be the test case for should this be commercial or not."

Jim Oliver, "If this were to be commercial have you looked at all your setbacks? Do you have a use for it? Do you have an end user?"

Sheffey Cochran, "I spoke to the storage unit because they already have a list of people who want to rent the units. He said he might be willing if I can get it zoned commercial because he owns the property next to me."

Jim Oliver, "Did you look over the list of conditions? Do you have a copy?"

Sheffey Cochran stated she did.

Jim Oliver, "We are a recommending body, so you will be going before the Board of Commissioners. If you get a favorable response from the board. Are you comfortable with the condition that you will remove the structure within 90 days?"

Sheffey Cochran states, "We would rather not remove it. We would rather whoever uses it as commercial or remove it themselves. Because it is going to cost us more to take it down than we will end up making."

Bell shows a current survey of the property. She states, "These buildings encroach on the current setbacks, and they would also encroach on the setbacks if zoned C-H. So, they are non-conforming structures. So, this diagram shows what the buffers and setbacks would be on the property, and they would definitely be encroaching on the buffers and setbacks if rezoned to C-H. This area on the interior of this box is about the only part of the property that is not located in a buffer or setback. It's a small parcel and for that reason, staff is recommending the demolition of existing structures."

Danny England, "And to be clear the setbacks you have shown on this diagram are the commercial setbacks."

Bell, "Yes, they are commercial setbacks and they do encroach on the residential setbacks. They may or may not be legal non-conforming, we did not investigate that."

Danny England, "Well, the house has been there forever."

Jim Oliver, "Have you thought about if you get approved, you have to go tear the house down within 90 days."

Sheffey Cochran, "Yes, well, it may cost more to tear it down than our return because it is a brick house."

Jim Oliver, "Well, I hate to state the obvious, but what do you want to do? We are a recommending body, I guess you can take our recommendation or leave it. I guess that would give you time to think about what you want to do. You have to think about now we have to tear it down and is that what you want to do? I want to make sure you are clear on that."

Danny England, "Actually the better statement is not what you want to do but are you willing to do it? If that is a stipulation to approval, you don't really have any choice."

John Culbreth, "You said yes you are willing to tear it down or no you are not?"

PC Meeting

Sheffey Cochran, "Yes, we are willing to tear it down, we just will have to figure it out."

John Culbreth, "Is the issue 90 days?"

Sheffey Cochran, "Yes."

John Culbreth asked the staff why 90 days?

Deborah Bell stated, "We generally set some time of deadline, so we have a goal. And something like a demolition does not take long to permit. It is a quick item to permit. Because the driveway is nonconforming. The driveway is nonconforming, so that is a reason to not allow a commercial development within existing structures because there is not a commercial driveway."

Jim Oliver, "You understand you are also putting on there a GDOT approval. That may take 6 months."

Deborah Bell, "That would be part of any new development process to get GDOT approval process to get the approval, but the demolition of the non-conforming structures is what we wanted to put a deadline on."

Sheffey Cochran states, "And we just remodeled the whole home. So why are they asking me to tear it down?"

Jim Oliver, "Mr. Chairman I would like make a motion to approve this petition with a change on the conditions from 90 days on demolition to 180 days."

Danny England, "On condition number one."

Jim Oliver asks staff to read the conditions out for the record.

"Yes sir, as amended the condition would read," said Deborah Bell Staff recommends the following CONDITIONS:

1. The residential structures, primary and accessory, on the property shall be demolished within 90 to be amended to 180 days of approval of the rezoning.

Sheffey, "Why are they asking for the building to be torn down?"

Danny England, "Because if we don't put a stipulation on it, three years from now, one of us drives by and it is still up. That house that was supposed to be removed because it was nonconforming is still there. Now it becomes a legal issue with the county attorney and the Marshal's office. When you are asking for a rezoning, they have to amend it.

Especially when you are going from something like this from A-R to commercial, the only way for the county to know you are starting from scratch and this building will meet the intent of the new zoning is to remove everything on the property that doesn't meet that zoning, so, therefore, this house is a goner. So, you are not a special case, and it happens to everyone."

Sheffey, "So can we add to the home?"

Danny England, "No, not in this case. Your property is all over the setback. The existing structure has very little value as a commercial property. Unless you find someone, who wants to move right in there, like a chiropractor. The house should be removed and start fresh."

Jim Oliver, "You have time, you can pull your petition before this goes any further."

Sheffey, "Ok."

Jim Oliver, "We have a motion with an amendment."

Danny England, "Did we get those all read in?"

Deborah Bell reads Conditions two and three.

2. A site plan and appropriate permits are required before any commercial uses may be conducted on the property.

3. A GDOT-approved commercial driveway is required before any commercial uses may be conducted on the property.

Jim Oliver made a motion to approve Petition No. 1336-23 subject to conditions.

Danny England seconded the motion subject conditions. The motion passed, subject to conditions, 4-0. The conditions are as follows:

Staff recommends the following CONDITIONS:

1. *The residential structures, primary and accessory, on the property shall be demolished within 180 days of approval of the rezoning.*
2. *A site plan and appropriate permits are required before any commercial uses may be conducted on the property.*
3. *A GDOT-approved commercial driveway is required before any commercial uses may be conducted on the property.*

9. Petition No. 1337-23 - Applicant proposes to rezone 2.40 acres from A-R to R-20 for the purposes of continuing a single-family home and accessory structures.

Deborah Sims introduces the staff report for Petition No. 1337-23. This property was subdivided some time ago but after the November 13, 1980, timeframe so in order to build anything on it, it will need to come into compliance. It is not a legal nonconforming lot. So, this is just asking to zone it to R-20 which follows the Future Land Use Plan of Fayette County. It is also the same surrounding zoning in the area.

Jim Culbreth asks if the petitioner would like to present their case.

“Good evening, I am Nathan Dockery the G.C. for the petitioner. They are out of town for work, so I am here on their behalf. The short version is they bought two parcels, one with a house on it a long time ago and was torn down. It has an existing driveway on it. The other lot is also tiny. It is zoned A-R so technically this is a nonconforming lot. We are looking to combine the two lots into one lot so we can build a house. We are asking for the same zoning as the other lot. Nothing special.”

John Culbreth, “Is there anyone else in support of this petition?”

“Hello, my name is Dianne Herring and I live next door to the property. I am in favor. I have lived in my home for 38 years and I was just wondering about compliance as far as square footage of the house and how many structures can be on the property.”

Deborah Bell states, “As it is zoned now as A-R the minimum square footage is 1,200 square feet. The minimum square footage if rezoned is also 1,200 square feet. There would be allowed 2 accessory structures with a total footprint of 1,800 square feet. That is the standard allowance for any lot within the county.”

John Culbreth asks if anyone is in opposition. If not, we will bring it back to the board. Are there any questions or inquiries?

Nathan Dockery states, “Someone named Christian or Chris called him and said they didn’t want him moving the existing driveway that it had the best site distance on the property and because it was on a curve, and he wanted us to try to use that, so he said we didn’t need to do a driveway inspection at this time.”

Deborah Bell states, “So Christian Smith does the driveway inspections, and Chris Stanley is the reviewer. Typically, Chris and Christian review these. If I may suggest that for the present, you approve the conditions as presented and between now and the Board of Commissioners meeting, I will follow up with Chris and Christian and we will get

some clarification on which driveway they would like for you to retain and which one they would like for you to remove.”

Nathan Dockery, “And if we can abandon that one and shift it over 50 feet, that is how our site plan was drawn. So, we love the new location, but we are fine. We will work through that with you guys.”

Danny England asked, “Nathan are you fine with the other two conditions?”

Nathan, “Yes, that’s fine.”

Danny England made a motion to approve Petition No. 1337-23 subject to conditions.

John Kruzan seconded the motion.

RECOMMENDED CONDITIONS

- 1. The owner/developer shall dedicate right-of-way, as needed, to provide 50 feet right of way as measured from the existing centerline of Hilo Road.*
- 2. The required right-of-way donation shall be provided to the County within 60 days of the approval of the rezoning request.*
- 3. The existing driveway on the western side of the property that connects to the neighboring property shall be removed due to noncompliance with sight distance prior to building permit issuance.*

ADJOURNMENT:

Danny England moved to adjourn the meeting. John Kruzan seconded. The motion passed 4-0.

The meeting adjourned at 7:31 p.m.

PETITION NO: 1338-24

REQUESTED ACTION: Rezone from A-R to R-72

PARCEL NUMBER: 0449 061

PROPOSED USE: Single-Family Residential

EXISTING USE: Single-Family Residential

LOCATION: 689 McBride Road

DISTRICT/LAND LOT(S): 4th District, Land Lot 252

ACREAGE: 2.14 acres

OWNERS: Jerry Battle, Jr. & Melissa Battle

AGENT: Randy M. Boyd

PLANNING COMMISSION PUBLIC HEARING: February 1, 2024

BOARD OF COMMISSIONERS PUBLIC HEARING: February 22, 2024

APPLICANT'S INTENT

Applicant proposes to rezone 2.14 acres from A-R to R-72 for the purposes of a single-family home and accessory structures.

STAFF RECOMMENDATION

As defined in the Fayette County Comprehensive Plan, Rural Residential - 2 is designated for this area, so the request for R-72 zoning is appropriate. Based on the Investigation and Staff Analysis, Staff recommends **APPROVAL** of the request for a zoning of R-72, Single-Family Residential District.

RECOMMENDED CONDITIONS

1. The owner/developer shall dedicate right-of-way, as needed, to provide 50 feet right of way as measured from the existing centerline of McBride Road.
2. The required right-of-way donation shall be provided to the County within 60 days of the approval of the rezoning request.
3. Applicant must obtain variances for structures not in compliance with R-72 Zoning or remove the structures within 180 days of rezoning approval.

INVESTIGATION

A. GENERAL PROPERTY INFORMATION

The property is a nonconforming lot. This property is not located in an Overlay Zone.

B. REZONING HISTORY:

There is no record of a prior rezoning.

C. CURRENT DEVELOPMENT HISTORY:

The Battles purchased the property in April 2023. At the time of purchase, there was an existing home constructed in 1901 with approximately 1,158 square feet, two (2) smaller sheds, one (1) 1,800 square foot metal building, and various debris. The sheds were never permitted. Mr. Battle applied for a building application for the 1,800 square foot shed in July 2023, however, staff was unable to approve the permit application because the lot was not a legal non-conforming lot. Rezoning is the first step in restoring the property to conforming status. The Battles understand variances and/or permits are also required if the existing structures are to remain. The existing house may be converted into a guest house for their handicapped son should the Zoning Board Appeals approve the variances for square footage and encroachment into the front yard setback. The Battles plan to construct a new primary residence that meets R-72 requirements once the non-conformances are cured.

B. SURROUNDING ZONING AND USES

Near the subject property is land which is zoned A-R, R-40, and R-72. See the following table and the attached Zoning Map.

West	2.49	R-72	Single Family Residential	Rural Residential – 1 unit/ 2 acres

All proposed map amendments shall be evaluated with special emphasis being placed on the relationship of the proposal to the land use plan and related development policies of the county. The following factors shall be considered by the planning and zoning department, the planning commission and the board of commissioners when reviewing a request for rezoning:

- (1) Whether the zoning proposal is in conformity with the land use plan and policies contained therein;
- (2) Whether the zoning proposal will adversely affect the existing use or usability of adjacent or nearby property;

STAFF ANALYSIS

1. The subject property lies within an area designated for Rural Residential-2 Uses. This request does conform to the Fayette County Comprehensive Plan in terms of the use and proposed lot size.
2. The area around the subject property is an area that already has various residential and agricultural uses. It is staff's opinion that the zoning proposal would not adversely affect the existing or future uses of nearby properties.
3. It is staff's opinion that the zoning proposal will not have an excessive or burdensome impact on streets, utilities, or schools.
4. The proposal is consistent in character and use with the surrounding uses as agricultural and low density residential.

APPLICANT'S INTENT

Applicant proposes to rezone 5.000 acres from R-70 to C-H for the purposes of extending the septic lines from the neighboring parcel to the south onto this property and possible other commercial uses.

STAFF RECOMMENDATION

As defined in the Fayette County Comprehensive Plan, Rural Residential - 2 is designated for this area, so the request for C-H zoning is not appropriate. Based on the Investigation and Staff Analysis, Staff recommends **DENIAL** of the request for a zoning of C-H, Highway Commercial District.

If the request is approved, staff recommends the following **CONDITIONS**:

1. Parcel 0450 090 be combined with parcel 0450 070 in an approved minor subdivision plat within 180 days of the approval of the rezoning request. Revised plat must include the 50' buffer separating the C-H Zoning from the residential zoning.
2. The existing asphalt driveway be removed within 180 days of the approval of the rezoning request. Removal of the existing asphalt driveway is stipulated on the minor final plat recorded on January 8, 2015. This was also a stipulation from GDOT for rezoning petition 1145-05.
3. If the septic system for 1552 S Highway 85 encroaches into this property, a revised site plan be submitted for approval within 90 days of the minor subdivision plat being approved and recorded.

Site Plan: The applicant submitted a survey for the property. The proposed development at this time is septic use for the commercial development under construction at 1552 S Highway 85. If septic is placed on this property, a revised site plan should be submitted.

E. DEPARTMENTAL COMMENTS

The following factors shall be considered by the planning and zoning department, the planning commission and the board of commissioners when reviewing a request for rezoning:

- (1) Whether the zoning proposal is in conformity with the land use plan and policies contained therein;
- (2) Whether the zoning proposal will adversely affect the existing use or usability of adjacent or nearby property;

- (4) Whether there are other existing or changing conditions affecting the use and development of the property which give supporting grounds for either approval or disapproval of the zoning proposal.

STAFF ANALYSIS

1. The subject property lies within an area designated for Rural Residential-2 Uses. This request **does not** conform to the Fayette County Comprehensive Plan in terms of the use and proposed lot size.
2. The area around the subject property is an area that already has various uses; residential, commercial, church, and school. It is staff's opinion that rezoning the parcel for septic area would not adversely affect the existing or future uses of nearby properties, however, new development that would be allowed in C-H zoning could adversely impact nearby properties.
3. It is staff's opinion that the zoning proposal could have an excessive or burdensome impact on streets.

APPLICANT'S INTENT

Applicant proposes to rezone 4.03 acres from A-R (Agricultural-Residential) to C-C (Community Commercial) for the purposes of constructing a convenience store with fuel pumps.

STAFF RECOMMENDATION

As defined in the Fayette County Comprehensive Plan, Rural Residential - 2 (1 unit/2 acres) is designated for this area, so the request for C-C zoning is not appropriate. Based on the Investigation and Staff Analysis, Planning & Zoning Staff recommends **DENIAL** of the request for a zoning of C-C, Community Commercial District. If the rezoning is approved, staff recommends the following conditions.

RECOMMENDED CONDITIONS

1. Require Right of Way dedication as needed along to meet 50 ft from centerline for Harp Road and to chamfer (20 feet along tangent legs) the corner of the intersection of Harp Road and Old Senoia Road.
2. The required right-of-way donation shall be provided to the County within 60 days of the approval of the rezoning request.

INVESTIGATION

A. GENERAL PROPERTY INFORMATION

The property is a nonconforming lot because it does not contain the minimum required acreage for the A-R zoning district. This property is not located in an Overlay Zone.

C. CURRENT DEVELOPMENT HISTORY:

The property is currently vacant land.

There is a small portion of Harp Road in the SW corner of this property that does not already meet the required 50 ft. from centerline ROW.
- Traffic Data -- According to the GDOT on-line traffic data, the annual average daily traffic for State Route 85 approximately 1 mile north of the site is 14,500 vehicles per day.

STANDARDS

Sec. 110-300. - Standards for map amendment (rezoning) evaluation.

All proposed map amendments shall be evaluated with special emphasis being placed on the relationship of the proposal to the land use plan and related development policies of the county. The following factors shall be considered by the planning and zoning department, the planning commission and the board of commissioners when reviewing a request for rezoning:

- (1) Whether the zoning proposal is in conformity with the land use plan and policies contained therein;
- (2) Whether the zoning proposal will adversely affect the existing use or usability of adjacent or nearby property;
- (3) Whether the zoning proposal will result in a use which will or could cause an excessive or burdensome use of existing or planned streets, utilities, or schools;
- (4) Whether there are other existing or changing conditions affecting the use and development of the property which give supporting grounds for either approval or disapproval of the zoning proposal.

STAFF ANALYSIS

1. The subject property lies within an area designated for Rural Residential Uses. This request does not conform to the Fayette County Comprehensive Plan in terms of the use.
2. The area around the subject property is an area that already has various residential uses. It is staff's opinion that the zoning proposal might adversely affect the existing or future uses of nearby properties. However, the possibility of whether this site is truly a desirable residential site should be considered.
3. It is staff's opinion that the zoning proposal will not have an excessive or burdensome impact on streets, utilities, or schools.
4. The proposal is not consistent in character and use with the surrounding uses as low density residential.
