Date: September 18, 2017
Subject: Contract #940-P: Engineer of Record for Public Works
Task Order 20 – Old Senoia Road Culvert Design
Amendment 1 – Limited Geotechnical Evaluation

Contract #940-P, Engineer of Record for Public Works, was awarded to Tetra Tech by the Board of Commissioners on July 9, 2015. *43,240* Task Order #16 was issued in February 2017 for Phase 1 of design of a new culvert for Old Senoia Road. This included a survey of the existing culvert and vicinity, and a review of the need for a FEMA no-rise certificate (CLOMAR). Task Order #20 was executed in May 2017 for Phase 2, which includes conceptual design and modeling, permits, utility coordination, detail design, no-rise certification, and bid documents and bidding assistance.

Environmental Management proposes an amendment to Task Order 20 to include limited geotechnical evaluation. This is needed for foundation design of the arch culvert system. *6,875 OK*

Specifics of the proposed contract amendment are as follows:
