Contract #1536-B: Stonewall TPO Roof

Change Order #2: Replace Slate with Shingles

On September 27, 2018 the Board of Commissioners awarded Contract #1536-B to Dusty Greer Roofing, Inc. for a new thermoplastic polyolefin (TPO) roof for the Stonewall Complex, for the amount of \$218,000.00. The project included replacement of all flat portions of the roof.

Change Order #1 used \$13,255 of funds from an Allowance included in the contract to pay for additional insulation, roof drains, taper, and coated metal, with no net increase to the contracted amount.

Dusty Greer Roofing came on-site and conducted two inspections to determine the source of additional leaks after the TPO roof was replaced. They determined that the slate roofing on the parapet along the edge of the roof, and on the towers, must be replaced. Change Order #2 will replace the slate with 30-year shingles (Attachment A).

It is recommended that Dusty Greer Roofing perform the additional work, rather than soliciting a new contractor. It is important to have a single company accountable for warranty work or other issues.

A Contractor Performance Evaluation is attached for Dusty Greer Roofing's work as provided in the original contract (Attachment B). Also, a summary of the reference checks from the original work is attached (Attachment C). Specifics of the proposed contract are as follows:
