Contract #1647-S: Floodplain Study Update

On May 10, 2012 the Board of Commissioners awarded a contract to Dewberry and Davis, LLC (now Dewberry Engineers, Inc.) to conduct floodplain studies and mapping. The studies included 100-year floodplains for tributaries in unincorporated Fayette County with drainage from 100 acres to 640 acres, and for tributaries with drainage areas over 640 acres.

At this time, it is necessary to update the floodplain studies. Dewberry Engineers can perform the update at a significant financial advantage to the county, since they can use the same terrain data that they used for the previous study. For that reason it is recommended that the county issue a Professional Services contract to Dewberry Engineers in the amount of \$72,000.00 for the update.

A Contractor Performance Evaluation is attached for the previous floodplain mapping.

Specifics of the proposed contract are as follows:
