Gentlemen/Ladies:

Below, please find responses to questions, clarification, or additional information for the above referenced Request for Information. You will need to consider this information when preparing your response.

1. Are there CAD drawings or prints depicting the current system available?

In issuing the Request for Information (RFI), the county is seeking information about the types of equipment, systems, networks, or other products and services that you recommend to enable us to achieve the goals stated in the RFI. We do not envision detailed plans, and we are not asking for proposals at this stage. The RFI is issued for educational purposes. Using information obtained from your responses, we plan to develop the scope of services and types of products that would be needed, then issue a Request for Proposals, Invitation to Bid, or other appropriate solicitation that would give companies the opportunity to compete for the project.

Note: If this addendum is not returned to the Fayette County Purchasing Department or if it is returned not signed, responding individuals, companies or other organizations will still be responsible for the requirements of this addendum and the specifications or changes herein.
