**Subject: ITB #1844-B: Redwine Road & Starrs Mill School Complex Multi-Use Path
Addendum #1**

Gentlemen/Ladies:

Below, please find responses to questions, clarification, or additional information for the above referenced Invitation to Bid. You will need to consider this information when preparing your bid.

- 1. We do not find Landscape/irrigation Quantity either on the list of Summary of quantity or on the plan. Please provide quantity & location where to install or to keep all bidder on the same page declare the allowance for pay item 009-2000 Landscaping with Irrigation (1 LS), instead.**

Fayette County agrees with the suggestion to provide a standard allowance for pay item 009-2000. The Project Pricing Sheet has been modified to provide an average allowance of \$10,200 for each of the five subdivision entrances. All work for this line item shall be pre-approved with an agreed-upon cost for each location. Actual payment for each entrance may be less or more than the assumed average allowance but the total cost for all approved landscaping and irrigation work shall not to exceed \$51,000 without a contract modification.

- 2. On plan sheet 5-002 in the upper left hand corner it shows an infiltration detail consisting of a trench with sand in the bottom with a 6 inch pipe and filled to the surface with stone; however special provision 999 Infiltration gives specs on earth fills and infiltration soils. Can you specify what the scope of work is for the infiltration trenches lump sum?**

The detail on sheet 05-002 should be used for the completion of the work (4" sand filter, 6" perforated underdrain, trench filled with 1.5-2.5" diameter clean stone, protective layer of filter fabric and 2" pea gravel filter layer (similar to the sketch on next page).

3. On plan sheet 6-001 under surfacing quantities you have 26 cy of Class B Concrete. Can you specify what this is to be used for?

The Class B concrete is for the repaving work where the landscaped island at Carnoustie Way (approximate station 220+80) is being modified.

4. The bid form and Summary of Quantities (sheet 6-002) for Drop Inlet, Group one shows 39 each. My takeoff shows 36 each with structures B-4, B-6 and CC-9 having double grates. Please clarify quantity of drop inlets.

That is correct. There are 36 total drop inlet structures, three of which (B-4, B-6 and CC-9) are double grated structures. The double grated structures are counted as double rather than creating a separate line item for them.

5. To install trail and piping at Redwine Lake the water will have to be removed. Can lake be dammed up? And does water need to be pumped around work area?

The GDOT standard specifications should be followed for construction means and methods.

6. Does the contractor have to get any permits for project? For wetlands? Roadway?

No, all required permits have been secured.

7. Will a storage yard be available?

If needed beyond the existing right-of-way, a storage yard is the responsibility of the contractor.

Received by (Name): _____ Company _____

Note: If this addendum is not returned to the Fayette County Purchasing Department or if it is returned not signed, responding individuals, companies or other organizations will still be responsible for the requirements of this addendum and the specifications or changes herein.

The opening date for this ITB has not changed. **The opening time and date are 3:00 p.m., Wednesday, September 16, 2020.** Bids must be received by the Purchasing Department at the address above, Suite 204, at or before the opening date and time.

The deadline for inquiries has passed, so the Purchasing Department will not be able to accept any additional questions after this time.

If you have questions, please contact Natasha Duggan, Contract Administrator at (770) 305-5150 fax (770) 719-5534 or email at nduggan@fayettecountyga.gov.

Sincerely,

Natasha Duggan for Ted Burgess

Ted L. Burgess
Director of Purchasing
