**Subject: ITB #1951-B: Redwine Road & Starrs Mill School Complex Multi-Use Path
Addendum #1**

Gentlemen/Ladies:

Below, please find responses to questions, clarification, or additional information for the above referenced Invitation to Bid. You will need to consider this information when preparing your bid.

1. Will the type 7 sign posts need to have breakaway bases?

No

2. Can the mast arm pole on this project be built to the old GDOT / AASHTO specification? GDOT recently updated their specification for any project bid after April 1, 2021 to be in accordance with the latest AASHTO specification. This new specification drastically increases the cost of all types of signal poles (especially steel). The foundations are required to be considerably larger as well. Our vendor has indicated (not yet priced) the materials cost for poles quoted according to this new specification are AT LEAST double what they were prior. Bids should be prepared using the project's current specifications (i.e., the old GDOT / AASHTO specifications). Following award Fayette County will coordinate with GDOT, the project Engineer, and the Contractor, as appropriate, to determine if a change in design (and/or cost) is needed.
