Subject: RFP #2018-P: Public Works Engineer of Record – Addendum #1

Gentlemen/Ladies:

Below, please find responses to questions, clarification, or additional information for the above referenced Request for Proposals (RFP). You will need to consider this information when preparing your proposal.

- 1. In reviewing the above referenced RFP in the IV. Scope of Services listed, does the proposal submittal need to include a project team to complete all services (inclusive of subconsultants), or are we able to submit on a particular service(s), i.e., Construction Materials Testing services?**

It is Fayette County's intent to award one EOR contract to a team that can provide all services. A proposal that meets one, or just a few, of the service areas, would likely not score high enough to be competitive.

- 2. In the listed Proposal Response Requirements #3f it asks for "a sample Task Order proposal for a stormwater replacement project." Our question in regard to this request is are we to provide a fee along with this? Fees are asked for separately. Also, are we to redact any client information, etc. or would you like to see that information? We just want to be clear on what you are expecting to see for that.**

Fees are not required for the sample Task Order. The intent of the Task Order is to evaluate what approach/strategy your team would take on the hypothetical project. For example, what data would be collected, what factors would be considered in establishing design criteria, etc.
