Subject:

Contract #2067-A Dust Control

The Road Department enters into a contract each year with a vendor to provide and apply a <u>road stabilization</u> and dust control agent to some of the county's unpaved roads. The stabilizer reduces distresses like washboarding (which requires expenditures to remedy) and loss of skid resistance (which is a safety issue).

There are several types of stabilizers available. Each may be appropriate for a particular type of road surface or climate. They include various types of chlorides, resins, natural clays, liquid asphalts, soybean oil, and other products. The Road Department has <u>used calcium chloride</u> as a road stabilizer for a number of <u>years</u>.

The Purchasing Department issued Request for Quotes #2067-A to secure a vendor for Fiscal Year 2023. Notice of the opportunity was emailed to <u>five companies</u>. <u>Another 485</u> were contacted through the webbased Georgia Procurement Registry, who had registered under commodity code #75045 (Dust Control Agents) and 96836 (Dust Control Watering). The offer was also advertised through Georgia Local Government Access Marketplace and the county's website.

One company South Eastern Road Treatment – submitted quotes. (Attachment 1). South Eastern Road Treatment has consistently been the only bidder for the last ten years. The regional distributor of calcium chloride, AVF Industries in Atlanta, confirmed that they supply only one vendor in this area, which is South Easter Road Treatment. The price they offered, at \$1.10 per gallon, has risen only 14.6% over the last seven years (Attachment 2).

The Road Department recommends awarding to South Eastern Road Treatment, Inc. A Contract Performance Evaluation for previous work is attached. (Attachment 3). Specifics of the proposed contract renewal are as follows:

**Contract Name** 

#2067-A Dust Control

Contractor

South Eastern Road Treatment, Inc.

Type of Contract

Annual, Not to Exceed
