Subject: #2116-A Asphalt Inspection Services - Addendum #1

Gentlemen/Ladies:

Below, please find responses to questions, clarification, and additional form for the above referenced Request for Quotes. Please see the attached **updated Price Sheet** that includes traffic control. You will need to consider this information when preparing your quote.

1. In Field Inspection Services – It states that Traffic Control shall be supplied by the vendor; however, there is no line item for Traffic Control in the Pricing Sheet. Is traffic control the responsibility of the County, Contractor, or Testing Company?

Please use the attached Price Sheet that shows the new Traffic Control line item.

2. For FDR Specifications – How many cores and test locations are anticipated for each test quantity? If there is not a known amount of test locations, do you have the anticipated length of roadway and how many travel lanes per test quantity?

Fayette County is proposing on doing the following FDR projects on the below roads between July 1, 2022 and June 30th, 2023:

- Wilmington Lane – 1910' by 24' wide
- Hampton Road – Antioch Road to Town of Woolsey Limits – 3,910' X 24'

3. Is it the responsibility for the Testing Company to perform pavement coring, obtain soil samples, backfill test locations, patch pavements with similar pavement materials, and perform the FDR mix design laboratory testing?

Yes, or bagged cold patch will be acceptable.

4. Are soil index tests of soil samples or composite samples required for AASHTO soil classification? If not, is soil index testing required (moisture content, gradation, and Atterberg limits)?

Fayette County is requiring a firm to provide a mix-design that can be bid out using GDOT Specifications.
