Gentlemen/Ladies:

Below, please find responses to questions, clarification, or additional information for the above referenced ITB. You will need to consider this information when preparing your bid.

- 1. Section K of the bid document states that Tack is to be included in the unit price for Asphalt Concrete Pavement, however the pricing sheet includes a bid item for Bitum Tack Coat. Section J states that Patching is to include tack as well. Please provide clarification as to when tack will be paid using the 413-0750 Bid Item.**

Please remove the last sentence from section K. For Patching tack will be included in the unit price. For resurfacing tack will be paid for separately.

This work shall consist of the placement of bituminous tack coat during the paving operation. Bituminous tack coat shall be applied between .04 to .06 gallons per square yard. All surfaces shall be cleaned completely and thoroughly before any tack is applied. ~~The tack coat will not be paid for separately but shall be included in the contract unit price for Asphalt Concrete Pavement.~~
