INTRODUCTION

ITB #2489-B: Fayette County Tactical Driving Course- Phase II Infield Construction

Fayette County (the County) invites bids from qualified GDOT contractors experienced in performing clearing, grading and paving projects for the construction of Phase II at the new Tactical Driving Course for the Fayette County Sheriff's Office.

Project Description:

Fayette County Sheriff's Office is planning the construction of Phase II of its tactical driving course to provide a venue for additional driver training for Sheriff's Deputies. Phase I of this project included the completion of the external driving course. Phase II will include the development of the infield to construct additional track sections to provide a place for PIT maneuvers to be performed and instructed. The Phase I Tactical Track (external track) is just under 1-mile in length. Phase II includes the construction of the Loop Track and the Internal Track. Together, Phase II will add a total of 3,600' of roadway to the overall training course.

The construction plans for this project show the work of **both** Phases I and II. Bidders must be aware that this bid is only for construction of the internal sections of track: the Loop Track and Internal Track. Generally, the following depicts the area constructed in Phase I versus the proposed work area of Phase II.

Phase I – Tactical Track

Phase II – Internal & Loop Tracks

Bidders should refer to the Phase I plans (provided) to understand what work has already been completed versus what work is proposed in Phase II.

An as-built topographical survey of the infield was not conducted after the completion of Phase I. Therefore, it cannot be guaranteed that the proposed elevations of Phase I match exactly the existing elevations of Phase II as shown. It is the intent of the design that the site is balanced. Appropriate adjustments may be made by the contractor as needed to ensure site balance, but roadway elevations should remain as designed unless otherwise approved by the civil engineer. The Owner will not pay for borrow material to be brought to the site.

Phase II will be constructed under the same LDP as Phase I. The erosion control measures of Phase I will remain in place and will function as active measures for the duration of Phase II. As a result, the bidder should prepare to repair (where necessary) and maintain the existing erosion control measure of Phase I as needed.

Bidders should note that this project is located on the same site as the Sheriff's Office Training Center. This is an active training center for the Sheriff's Office; therefore, security is tightly controlled, and access will be limited during the bidding period. Also, across the main road from the track, the Fire/EMS Training Center is currently under construction.

The certificate shall list an additional insured as follows:

- 32. Inspection and Acceptance of Deliveries:** The County reserves the right to inspect all goods and products delivered. The County will decide whether to accept or reject items delivered. The inspection shall be conclusive except with respect to latent defects, fraud, or such gross mistakes as shall amount to fraud. Final inspection resulting in acceptance or rejection of the products will be made as soon as practicable, but failure to inspect shall not be construed as a waiver by the County to claim reimbursement or damages for such products which are later found to be in non-conformance with specifications. Should public necessity demand it, the County reserves the right to use or consume articles delivered which are substandard in quality, subject to an adjustment in price to be determined by the Purchasing Director.
- 33. Termination for Cause:** The County may terminate the contract for cause by sending written notice to the contractor of the contractor's default in the performance of any term of this agreement. As appropriate, the County will compensate the contractor for completed performance, and for any partially completed performance as determined by the County to be adequately performed. Termination shall be without prejudice to any of the County's rights or remedies by law.

- 34. Termination for Convenience:** The County may terminate the contract for its convenience at any time with 10 days' written notice to the contractor. In the event of termination for convenience, the County will pay the contractor for services performed. The County will compensate partially completed performance based upon a signed statement of completion submitted by the contractor, which shall itemize each element of performance completed.
- 35. Force Majeure:** Neither party shall be deemed to be in breach of the contract to the extent that performance of its obligations is delayed, restricted, or prevented by reason of any act of God, natural disaster, act of government, or any other act or condition beyond the reasonable control of the party in question.
- 36. Governing Law:** This agreement shall be governed in accordance with the laws of the State of Georgia. The parties agree to submit to the jurisdiction in Georgia, and further agree that any cause of action arising under this agreement shall be required to be brought in the appropriate venue in Fayette County, Georgia.
