ART WORK

Artists are strongly encouraged to review the FCPAC Guidelines prior to submitting their RFQs. Under these guidelines, a chosen artwork must reflect:

1. **Quality:** Artistic excellence of the artwork as well as a broad range of appeal to the general public.
2. **Timelessness:** Artwork will be viewed as a long-term acquisition that should have aesthetic relevance to the community in future years and reflect enduring artistic quality.

3. Site Compatibility and Appropriateness: Artwork must be appropriate in scale, material, form and content for both the immediate and general, social and physical environment in which the artwork will be placed. The artwork should have connection to the Heritage Park Fountain site.
4. Elements of Design: The FCPAC takes into account that public artwork may have consideration beyond the aesthetic; it may serve to establish focal points, define spaces, or establish a cultural identity. The artwork will be viewed from all angles; artists should consider the entire surface of the piece when planning the design.
5. Sustainability: Artwork must take into consideration maintenance, safety and longevity. The longevity or lifespan of the work and its maintenance to sustain excellent condition will be discussed at the outset of negotiations to produce a Maintenance Plan. Artists (or artist teams) will take this into account including warranty when developing and executing the required work.

The art piece will be installed outside and exposed to the elements, including harsh sun, high winds, wide fluctuations in temperature and moisture. Materials must require little or no maintenance and must be able to withstand the test of time. Painted artwork should use pigment designed to withstand the elements.

6. Permanence and Safety: Consideration will be given to structural and surface integrity, permanence, and protection against theft, vandalism, weathering, and excessive maintenance and repair costs. The artwork should be durable and safe for interaction with the public, especially children.
7. Diversity: The FCPAC strives for diversity in style, scale, media and artists.

The piece cannot: 1) interfere with the movement, safety and security of pedestrians; 2) hinder or require significant additional grounds maintenance; 3) adversely impact wildlife; 4) adversely impact views in any significant way.

In addition, since this call is for artwork that will be installed in open space, the following guidelines have been suggested by the FCPAC.

Artwork:

- Is incorporated into the site so that it blends well;
- Is made of natural materials and uses neutral or natural colors;
- Relates to the site and people on a human scale;
- Could have an environmental purpose;
- Could provide environmental education.

Securing adequate funding is the cornerstone of any public art project. To support the Heritage Park Fountain project financially, FCPAC will be seeking donations from public-private individuals and corporations, and crowd funding. FCPAC will secure dollars through a Matching Challenge Fund, which supports the community's arts projects. You give a dollar – we give a dollar. Just like that, the impact of your contribution is immediately doubled. Secured financial backing through sponsorships and partnerships will be the major deciding factor for the success and implementation of this project.
