Subject: 1051-N, Amendment 1: Lake McIntosh – USACE Success Criteria & Mitigation Submittals

On June 29, 2007 the U.S. Army Corps of Engineers (USACE) issued Permit Number 200115230 to the county for construction of an earth embankment dam, which would create Lake McIntosh. To compensate for impact and protect water quality, the Corps required mitigation at sites in Fayette, Spalding, and Meriwether Counties. On April 15, 2015 the Corps issued another letter, requesting certain documents pertaining to the mitigation, to assure that all compliance issues are being addressed. These requirements were addressed by issuance of Contract #971-N to Laura Benz, LLC.

Contract #1051-N was awarded to continue the Lake McIntosh work with assessment of permit documents and reports, negotiation of success criteria and monitoring metrics, coordination with the USACE, and related work. This contract amendment will provide for the following services, at the hourly rate of \$280.00:

1. Meet with the USACE on Year 4 monitoring results and confirmation of credit deficiency
2. Negotiate success criteria for wetland and stream on mitigation sites
3. Attend multi-day compliance visit at completion of Year 5 monitoring
4. Continue coordination with the USACE for compliance discussion and resolution regarding the 404 permit.

Specifics of the contract are as follows:

Contract name:	1051-N	Lake McIntosh - USACE Success Criteria & Mitigation Submittals
Amendment Number		Amendment #1
Contractor:		Laura W. Benz, LLC.
Contract type:		Professional Services
Not-to-exceed amount:		\$30,000.00
Budget:		Litigation Fund
